LOGO

ALTERNATIVE 1

This logo is the strongest of the three. The letters are wide and bold, with soft, rounded ends. It feels confident and classic, like a famous old perfume house. It is easy to read from far away, so it works well at events, on VIP perfume kits and during a live perfume show in a hotel. The symbol is two flowers facing each other, like a mirror. This option shows that Lavara is a serious luxury brand.

LOGO

ALTERNATIVE 2

This logo uses a classic, elegant letter style. Some lines are very thin and some are thick, which makes it feel refined and expensive. The letters have soft curves, like flowers, and connect Lavara to the world of perfume. The symbol is a decorated letter "A", like a monogram on fine hotel towels or a private invitation. This option feels feminine, calm and luxurious.

ALTERNATIVE 3

This logo uses tall, thin and light letters. It is clean, modern and quiet, like the lobby of a high-end hotel. The small details at the ends of the letters give it a natural, organic feeling. The symbol is a letter "A" with branches growing out of it, a sign of nature and rare ingredients. This option feels simple, calm and premium.
